Agenda and Notes

Item	Notes	Actions	Due	People
1)	Clarified the goals of project with client as there was confusion with the modelling part	Main aim is to find relationship with ESV data with Scrapped data		All
2)	P1. Scrape worker profiles from https://www.serviceseeking.com.au/ and compare with ESV data set to identify licensed / unlicensed work. Update the timeframe of scrapping for both service seeking and airtasker websites to help understand the volume of data. Other websites similar to airtasker with electrician work can be explored.			Meghna, Xinyu
3)	P2. Task description topic modelling - type of task vs unlicensed work to identify the seriousness of the task			Vignesh, Chen
4)	P3. Do people actually care about licensed work or give more preference to feedback rating? – Explore clustering of jobs, accepted offers vs. feedback rating correlation			Vignesh, Chen
5)	P4. Electrician suburb clustering			Vignesh, Chen
